### Product Description

## Smoke luxury glass bathroom accessories set round with vintage pattern bath kit soap dish tumbler

Product introduction:

Our Product

This is a six-piece bathroom accessory set crafted from smoked-tinted embossed glass, including a lotion dispenser, tumbler, toothbrush holder, cotton jar, soap dish, and towel tray. Its retro yet sophisticated design infuses any bathroom space with a unique artistic touch.

The entire set features translucent smoked glass, which exhibits a subtle, muted gray luster under light. This preserves the clarity of glass while adding a sense of calm and refinement. The surfaces of the bottles and containers are adorned with three-dimensional embossed craftsmanship, where delicate lily-of-the-valley patterns emerge naturally from the glass. The raised and recessed textures not only enhance the three-dimensional depth of the pieces but also transform each item into a miniature work of art, creating rich, layered variations in light and shadow.

From left to right, the six pieces each serve a distinct function while maintaining a unified design language:

**Cotton jar:** Designed with a lid, the matte black top creates a striking material contrast with the smoked glass. The small knob on top allows for easy opening and closing, providing storage for cotton pads and swabs while keeping dust out and maintaining a tidy countertop.

**Lotion dispenser:** The press-type pump head is finished in matte black, complementing the smoked glass bottle. The sleek bottle lines, paired with the three-dimensional lily-of-the-valley embossing, offer a smooth pressing feel and even liquid dispensing, making it suitable for hand soap, body wash, and other liquids.

**Toothbrush holder:** A dual-compartment design with transparent glass that keeps contents visible. The embossed patterns echo the other pieces, holding two toothbrushes simultaneously and keeping the countertop clean and organized.

**Tumbler:** A standalone single cup, ideal for rinsing or storing small items. Its smoked glass and embossed texture blend seamlessly with the entire set, creating a visually cohesive look.

**Towel tray:** A rectangular design with rounded edges. The extensive embossed patterns make the tray a focal point on the countertop, serving as both a storage solution for towels, diffusers, and small items, and a decorative element.

**Soap dish:** An oval design with non-slip textures at the bottom and embossed details that balance practicality and aesthetics. It holds bar soap, keeping the countertop dry and tidy.

Overall, this six-piece bathroom set achieves a perfect balance between functionality and aesthetics through the combination of smoked glass and matte black accessories, along with the consistent three-dimensional lily-of-the-valley embossing. It is suitable for modern minimalist bathrooms and can also infuse a touch of retro luxury into traditional spaces, making it an ideal choice to elevate the style of any bathroom.

### **Cleaning Tips for the 6-Piece Glass Bathroom Set**

This 6-piece smoked embossed glass bathroom set combines the transparency of glass with the delicacy of embossing. With simple daily care, it can maintain its retro and high-end texture for a long time, protect the delicate luster of the embossed texture, and avoid glass yellowing, scratches and accessory oxidation.

#### **I. Daily Cleaning (1-2 times a week, basic maintenance)**

1. Overall Cleaning: Moisten a soft cloth (cotton or microfiber is preferred) with clean water, gently wipe the surface of all parts to remove dust and water stains. Use gentle force to avoid rubbing the embossed texture and scratching the glass surface.
2. Cleaning of Embossed Crevices: Use a soft brush or cotton swab to gently sweep the crevices of the embossed patterns, remove accumulated dust and residual stains, and avoid stain accumulation affecting the beauty of the texture.
3. Cleaning of Parts Prone to Residue: After using the lotion dispenser, rinse the inside with clean water in a timely manner to avoid sticky residue and pump clogging; after each use of the soap dish and towel tray, simply wipe the surface water stains to prevent water accumulation.

#### **II. Removing Water Stains and Limescale (clean as needed, avoid corrosion)**

1. Light Stains: Dilute mild dish soap, dip a soft cloth in it and wipe gently, let it stand for 1 minute, then rinse with clean water and dry with a dry cloth.
2. Stubborn Limescale: Use diluted white vinegar or citric acid water (ratio of white vinegar to water is 1:3), dip a soft cloth in it

and gently wipe the limescale area, do not let it stand for more than 2 minutes, immediately rinse thoroughly with clean water and dry to prevent glass corrosion and damage to the embossed texture.

3. Note: Dry thoroughly. Air-dried water stains will leave white marks, damaging the transparency and retro texture of the smoked glass.

### III. Maintenance of Embossed Texture and Electroplated/Matte Accessories (Key Points)

1. Embossed Texture: Avoid wiping with hard brushes or abrasive sponges to prevent texture wear and loss of three-dimensional sense; after cleaning, gently press with a dry cloth to absorb water, do not rub hard.

2. Matte Black Accessories (pump head, cotton jar lid): Avoid contact with strong acids, strong alkalis, disinfectants and bleach to prevent surface fading and discoloration; dry after use to avoid oxidation and paint peeling caused by long-term dampness.

### IV. Exclusive Tips for Each Component

1. Lotion Dispenser: Thoroughly clean the bottle body and pump head every month, disassemble the pump head to rinse the internal pipeline, and refill after drying to avoid bacteria growth from residue.

2. Toothbrush Holder/Tumbler: Rinse the inner wall with clean water every day to avoid toothpaste residue accumulation; clean thoroughly with mild dish soap once a week, and use after drying.

3. Cotton Jar: Keep the inside dry, open the lid regularly for ventilation to prevent cotton pads from getting damp and moldy; clean the jar body and lid separately to avoid water stain residue.

4. Soap Dish: Timely clean the soap scum left by soap to avoid hard soap scum adhering to the embossed texture, which is difficult to clean.

5. Towel Tray: Avoid placing damp towels for a long time, wipe the bottom of the tray regularly to prevent glass mold and accessory oxidation caused by water accumulation.

### V. Prohibitions (Must Avoid)

Do not use strong acids, strong alkalis, bleach or abrasive cleaners to avoid corrosion of glass and accessories.

Do not use hard brushes, steel wool or abrasive sponges to prevent scratching the glass surface and embossed texture.

Do not let cleaners stay on the glass or accessory surface for a long time to avoid material damage.

Do not expose to direct sunlight or allow long-term water accumulation to prevent glass yellowing, embossment fading and accessory oxidation blackening.

Following the above simple care methods, this 6-piece smoked embossed glass bathroom set can maintain its retro and transparent texture for a long time, making each piece always like an exquisite work of art, and continuously adding a sense of high-end to the bathroom space.

### Production process

### FAQ

#### Are you a factory or trading company?

We are a factory with sales office and factory in Dongguan, China. Our factory has BSCI certificates and more than 60 experienced workers.

#### How about the delivery day?

We need 60 days as production lead time after the order is confirmed. We have no stock at hand, so we will prepare material and arrange mass production according to your purchase order.
