Clear bathroom set round with dots modern design glass lotion pump tumbler soap dish toothbrush holder

Product introduction:

This is a four-piece bathroom set crafted from glass, including a lotion dispenser, tumbler, toothbrush holder, and soap dish. Its dazzling design infuses any bathroom space with a refined and sophisticated visual appeal.

The entire set is made of high-clarity glass. When light refracts through it, every cut facet sparkles like a diamond, preserving the transparency of the glass while creating a brilliant effect through rich light and shadow variations. The cylindrical silhouette of the bottles and containers, paired with three-dimensional textures, not only enhances the product's sense of depth but also transforms each piece into a miniature crystal artwork, displaying dynamic luster changes under different lighting conditions.

From left to right, the four pieces each serve a distinct function while maintaining a unified design language:

Toothbrush holder: A dual-compartment design adorned with an antique bronze metal ring at the top. The transparent glass keeps the interior clearly visible, and the cut textures echo the other pieces. It can hold two toothbrushes simultaneously, keeping the countertop clean and organized.

Lotion dispenser: The press-type pump head features an antique bronze finish, complementing the clear glass bottle. The sleek bottle lines, combined with three-dimensional cut textures, offer a smooth pressing feel and even liquid dispensing, making it suitable for hand soap, body wash, and other liquids.

Tumbler: A standalone single cup, ideal for rinsing or storing small items. Its clear glass and cut textures blend seamlessly with the entire set, creating a visually cohesive look.

Soap dish: An oval design that balances practicality and aesthetics. It holds bar soap, keeping the countertop dry and tidy.

Overall, this four-piece bathroom set achieves a perfect balance between functionality and aesthetics through the material contrast of glass and antique bronze accessories. It is suitable for modern, light-luxury style bathrooms and can also infuse a touch of dazzling refinement into traditional spaces, making it an ideal choice to elevate the style of any bathroom.

Cleaning Tips for the 4-Piece Glass Bathroom Set

This 4-piece glass bathroom set features three-dimensional textures and antique bronze accessories, creating a brilliant and luxurious finish. With simple daily maintenance, you can preserve its sparkling luster for years, while preventing glass scratches and accessory oxidation.

I. Daily Cleaning (1–2 times a week, Basic Care)

Overall Cleaning: Wipe dust and water stains gently with a soft cotton or microfiber cloth dampened with clean water. Apply light pressure only to avoid scratching the glass or abrading the textured surfaces.

Texture Crevice Cleaning: Use a soft-bristled brush or cotton swab to gently clean the gaps in the 3D textures. Remove trapped dust and residue to prevent dullness and maintain shine.

Residue-Prone Parts: Rinse the inside of the lotion dispenser thoroughly after use to prevent sticky buildup and pump blockage. Wipe the soap dish dry after each use to avoid water accumulation.

II. Removing Water Stains & Limescale (As Needed, Corrosion Prevention)

Light Stains: Wipe with a soft cloth dipped in diluted mild dish soap. Let it sit for 1 minute, then rinse with clean water and dry immediately with a lint-free cloth.

Stubborn Limescale: Use a 1:3 mixture of white vinegar and water. Apply to the affected area with a soft cloth and **do not leave it on for more than 2 minutes**. Rinse thoroughly and dry at once to prevent glass etching or discoloration.

Important Note: Always dry completely. Air-dried water droplets will leave unsightly white spots and diminish the glass's clarity and sparkle.

III. Care for Textured Glass & Antique Bronze Accessories (Key Points)

Textured Glass: Never use hard-bristled brushes or abrasive sponges, as they will wear down the textures and reduce their dimensionality. After cleaning, blot water gently with a dry cloth—do not rub vigorously.

Antique Bronze Accessories (Pump head, Toothbrush holder ring) Avoid contact with strong acids, alkalis, disinfectants, and bleach, which cause fading and discoloration. Dry these parts immediately after cleaning to prevent oxidation and blackening from prolonged moisture.

IV. Component-Specific Tips

Lotion Dispenser: Disassemble and clean the bottle and pump head monthly. Rinse internal tubes thoroughly and air-dry completely before refilling to prevent bacterial growth.

Tumbler / Toothbrush Holder: Rinse the interior daily to remove toothpaste residue. Clean thoroughly with mild dish soap once a week and air-dry before use.

Soap Dish: Remove soap scum regularly. Hardened scum will stick to the textured surfaces and become difficult to remove.

V. Prohibitions (Strictly Avoid)

Do not use strong acids, alkalis, bleach, or abrasive cleaners (may corrode glass and accessories).

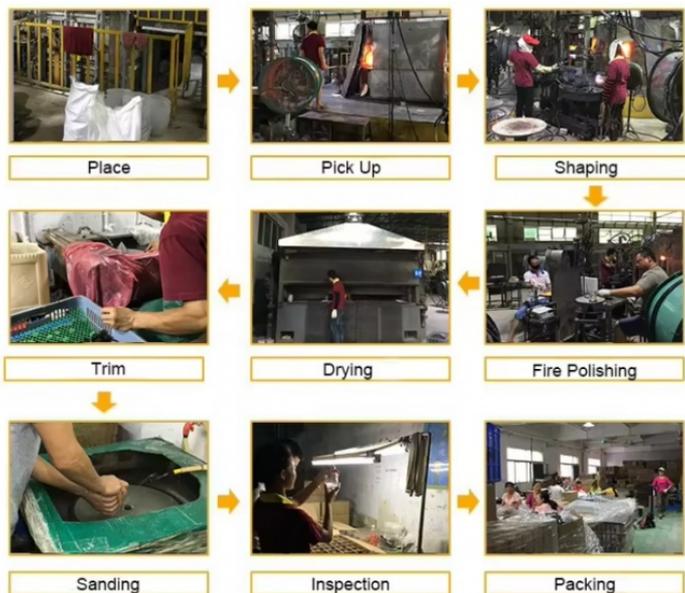

Do not use hard brushes, steel wool, or abrasive sponges (may scratch glass and damage textures).

Do not let any cleaner sit on the surface for extended periods (may cause material damage).

Do not expose to direct sunlight or allow long-term water accumulation (may cause glass yellowing and accessory oxidation).

By following these simple care instructions, this 4-piece glass bathroom set will retain its brilliant, sparkling finish long-term, continuing to add a touch of elegance and sophistication to your bathroom space.

Production process

FAQ

Are you a factory or trading company?

We are a factory with sales office and factory in Dongguan, China. Our factory has BSCI certificates and more than 60 experienced workers.

How about the delivery day?

We need 60 days as production lead time after the order is confirmed. We have no stock at hand, so we will prepare material and arrange mass production according to your purchase order.

Can I use my own design/color?

Surely you can! You can change the color of the include parts & body, components, and pattern. We can follow your design and artwork in mass production. For some new design, tooling might be needed; we will advise on the tooling cost and lead time before creating.
