## Custom color resin bathroom accessories set round with stripe polyresin soap dispenser toilet set

### Product introduction:

In the aesthetic expression of bathroom spaces, the interplay of materials and lines always delivers delightful surprises. This five-piece resin bathroom set, with its deep, tranquil blue hue and fine vertical ribbed texture, seamlessly blends modern minimalism with practical functionality, infusing your bathroom with an air of elegant sophistication.

The set comprises five essential items: a soap dispenser, a tumbler, a toothbrush holder, a soap dish, and a toilet brush. Each piece is meticulously designed to function both independently and as a cohesive visual ensemble. Crafted from high-quality resin, the set boasts a warm, smooth touch, along with waterproof, moisture-resistant, and wear-resistant properties. It effortlessly withstands the humid bathroom environment, maintaining its pristine appearance over time. The vertical ribbed texture not only elevates the visual depth but also enhances grip, ensuring a secure and stable hold during use.

The soap dispenser features an ABS pump head for smooth, comfortable dispensing, ideal for hand soap or shower gel. The toothbrush holder's dual-compartment design neatly accommodates two toothbrushes, keeping their heads dry and hygienic. The tumbler, with its sleek, rounded lines and generous capacity, is perfect for rinsing or storing small items. The oval soap dish has slightly raised edges to prevent slippage and a drainage base to keep soap dry. The toilet brush, with its metallic handle and matching blue holder, offers a discreet, space-saving solution that enhances overall tidiness.

From color and material to function and aesthetics, this bathroom set embodies the design philosophy of "less is more." It transcends mere utility to become a decorative art piece, effortlessly complementing modern minimalist, Nordic, and various other home decor styles, turning every use into an encounter with beauty.

## **Cleaning Tips for the 5-Piece Glass Bathroom Set**

### **I. Daily Basic Cleaning (1–2 times per week)**

#### **General Principles**

The set is made of resin. Avoid hard tools like steel wool or scouring pads to prevent scratching the vertical ribbed surface. Use warm water with a neutral dish soap or hand soap, and wipe with a soft cloth or sponge. For metal pump heads and handles, gently wipe with a dry soft cloth to avoid oxidation caused by prolonged water exposure.

#### **Soap Dispenser**

Empty any remaining liquid, rinse the inside with warm water, add a small amount of neutral detergent, shake well, then rinse thoroughly.

The pump head can be removed and soaked in warm water for 5–10 minutes to clear any residue and prevent clogging. Wipe the bottle body with a soft cloth, and dry the pump head with a dry cloth to avoid water residue.

#### **Toothbrush Holder & Tumbler**

Pour out any standing water, and clean the inside with a soft brush or sponge to remove toothpaste residue and dirt. Rinse with warm water, then invert to drain and keep the interior dry to prevent mold growth.

## Soap Dish

Empty standing water daily and rinse with warm water to remove soap scum.

For stubborn soap scum, gently wipe with a soft cloth dipped in a small amount of baking soda paste, then rinse and dry thoroughly.

## Toilet Brush

After each use, rinse the brush head with clean water, then soak it in diluted disinfectant for 5 minutes.

Clean the brush holder with neutral detergent, wiping both inside and out, then rinse thoroughly and invert to air dry.

---

## II. Deep Cleaning (once per month)

Place all non-metal components in warm water with a small amount of neutral detergent and soak for 15–20 minutes.

Use a soft brush to gently scrub the gaps in the vertical ribs to remove accumulated dirt, then rinse thoroughly with clean water.

Wipe metal pump heads and handles with a dedicated metal polish or alcohol pads to restore their shine.

---

## III. Important Notes

Avoid prolonged exposure to direct sunlight or proximity to high heat sources to prevent discoloration and deformation of the resin.

Do not use cleaners containing bleach, strong acids, or strong alkalis, as they may corrode the material.

Keep the set dry when stored, and avoid prolonged standing water to prevent mold and unpleasant odors

## Production process
