## Modern bathroom accessories round with stripe and wood part resin soap dispenser lotion bottle tumbler

### Product introduction:

In the fast-paced urban life, the bathroom serves as a private sanctuary where we shed fatigue and reconnect with ourselves. This 4-piece resin and bamboo bathroom set infuses daily cleansing routines with poetic charm and a sense of ritual through its natural textures and warm finishes, turning every touch into a gentle dialogue with life.

Crafted from high-quality resin, the main body features a delicate vertical ribbed texture created via a specialized process. It offers a warm, non-slip grip while being scratch-resistant, and its matte deep green hue exudes understated elegance—perfect for complementing modern minimalist, Nordic, or even vintage bathroom aesthetics. Natural bamboo accents adorn the base and decorative sections, their distinct wood grain creating a striking contrast with the matte resin. Eco-friendly and inherently warm, these bamboo elements infuse the bathroom with a cozy, earthy vibe.

The set covers all core bathroom needs:

The soap dispenser is equipped with an ABS pump head, ensuring smooth, jitter-free pressing and consistent, fine liquid output, ideal for hand soap, body wash, and other daily toiletries.

The toilet brush features a sturdy stainless steel (S/S) handle that resists rust, paired with a nylon brush head. The flexible bristles deliver powerful cleaning performance, reaching deep into toilet crevices while resisting dirt buildup.

The matching tumbler and tray complete the set: the tumbler's rounded shape fits comfortably in hand, while the tray neatly organizes soaps, jewelry, and other small items, keeping your countertop clutter-free.

Every detail reflects a commitment to quality. The resin material is waterproof, moisture-resistant, and easy to clean, thriving in the humid bathroom environment. The bamboo components are treated to prevent mold, ensuring long-lasting durability. The combination of the stainless steel handle and nylon brush head balances practicality with longevity. With no need for complex styling, this set instantly elevates your bathroom space, turning mundane cleansing into a luxurious, enjoyable ritual.

## Cleaning Tips for the 4-Piece Glass Bathroom Set

### 1. Cleaning Resin Components (Soap Dispenser / Tumbler / Tray / Toilet Brush Holder)

**Daily Cleaning:** Wipe the vertical ribbed texture gently with a soft, damp cotton cloth or sponge dipped in neutral dish soap or soapy water to remove daily water stains and foam residue.

**Deep Stain Removal:** For stubborn stains, apply a small amount of toothpaste to the affected area, gently scrub with a soft-bristled brush, then rinse thoroughly with water. Avoid using hard tools such as steel wool or scouring pads to prevent scratching the resin surface.

**Precautions:** Do not use strong acid or alkaline cleaners (e.g., toilet cleaner, 84 disinfectant), as they may corrode the matte coating. Dry the surface promptly with a cloth after cleaning to avoid material aging caused by prolonged water exposure.

---

### 2. Cleaning & Maintenance of Bamboo Accessories

**Cleaning Method:** Wipe the wood grain surface with a slightly damp soft cloth to remove dust and water stains. Do not soak in water for a long time to prevent the bamboo from absorbing water, deforming or cracking.

**Mold Prevention & Care:** Wipe with diluted white vinegar water (1:10 ratio) once a month, or apply a small amount of natural wood wax oil. This not only prevents mold and bacteria but also maintains the luster of the wood grain and extends the service life.

**Environmental Tips:** Avoid placing the product in direct sunlight or high-temperature areas (e.g., near a bathroom heater) to prevent cracking of bamboo due to thermal expansion and contraction.

---

### 3. Specialized Cleaning of Functional Accessories

**ABS Pump Head (Soap Dispenser):** If the liquid flow is blocked, remove the pump head and soak it in warm water for 10-15 minutes to dissolve the residual toiletries crystals. Rinse thoroughly with water before reinstalling. Do not pierce the liquid outlet with sharp objects.

**Stainless Steel (S/S) Toilet Brush Handle:** Wipe with a damp cloth dipped in neutral detergent. The stainless steel material is rust-resistant and requires no additional anti-rust treatment. Dry it and place it in a ventilated area.

**Nylon Brush Head:** Rinse thoroughly with water after use, soak in a small amount of disinfectant for 5 minutes to sterilize, then hang to dry. Avoid prolonged soaking in water to prevent bristle deformation and bacterial growth.

---

### 4. Daily Usage Tips

Avoid pouring boiling hot water directly into the tumbler to prevent the resin from cracking due to excessive temperature differences.

Do not fill the soap dispenser with overly viscous toiletries to avoid clogging the pump head.

Regularly check the bamboo accessories for signs of moisture. If mild mold is found, wipe it with an alcohol cotton pad and air-dry it promptly.

By following these methods, your bathroom set will maintain its warm texture and tidy appearance for a long time, creating a comfortable and refined living atmosphere in your bathroom.
