Luxury sandstone bathroom accessories set round with travertine look soap dispenser with wood base

Product introduction:

In the hustle and bustle of urban life, the bathroom is a healing corner where we shed fatigue and return to our true selves. Drawing inspiration from natural travertine, this 5-piece travertine texture sandstone bathroom set infuses daily cleansing with wabi-sabi poetry through its simple textures and warm wood tones, turning every touch into a gentle dialogue with the earth.

The main body of the product is made of high-quality sandstone material, and the surface restores the natural travertine effect through a special process. The mottled holes are intertwined with the delicate sand texture, which feels rough yet warm, with a sense of sophistication precipitated by time. The off-white base color is matched with solid wood accessories, and the warm brown wood grain forms a clever contrast with the sandstone texture. It is not only suitable for wabi-sabi, Japanese minimalist styles, but also can add natural layers to modern light luxury bathrooms, instantly transforming the bathroom countertop into a healing scenery.

This 5-piece set fully covers the core needs of the bathroom:

The soap dispenser is equipped with a matte gold ABS pump head, which presses smoothly without jamming, dispenses liquid evenly and delicately, and the metallic texture complements the sandstone bottle body perfectly.

The toilet brush adopts a stainless steel (S/S) long handle, which is sturdy and durable, not easy to rust. It is paired with a nylon brush head, which has strong flexible decontamination ability and can deeply clean the corners of the toilet. The base is built with a black TPR sheet, which effectively prevents slipping and shock absorption, making it more stable to place.

The storage jar with a wooden lid can store small items such as cotton swabs and cotton pads; the mouthwash cup has a rounded body that fits the palm comfortably; the tray can store soap, jewelry and other items, keeping the countertop tidy and orderly.

Every detail from material to craftsmanship reflects the pursuit of quality: the sandstone material is waterproof, moisture-proof and easy to clean, fearless of the humid bathroom environment; the travertine surface is scratch-resistant and wear-resistant, maintaining its simple texture even after long-term use; the solid wood accessories have undergone mildew-proof treatment, warm and durable; the combination of stainless steel handle and nylon brush head balances practicality and service life. No additional matching is needed, this set can light up the entire bathroom, making washing a short natural healing experience and endowing ordinary daily life with a simple sense of ritual.

Product Specification:

Type	Five-piece Set	Brand Name	Mayland

Cleaning Tips for the 5-Piece Glass Bathroom Set

1. Cleaning Sandstone Components (Soap Dispenser Bottle, Tumbler, Tray, Toilet Brush Holder, Storage Jar)

Daily Cleaning: Gently wipe the sandstone surface with a soft, damp cotton cloth or sponge dipped in a small amount of neutral dish soap or mild soapy water, focusing on removing water stains, foam residue, and dust. The travertine surface has natural pores; avoid vigorous rubbing during cleaning to prevent dirt from embedding into the pores.

Deep Stain Removal: For stubborn stains (such as limescale or toiletries residue), apply a small amount of non-abrasive toothpaste to the stained area, gently scrub with a soft-bristled brush, rinse thoroughly with water, and then dry with a cloth. Do not use hard tools such as steel wool or scouring pads, as they may scratch the surface and damage the travertine texture.

Precautions: Do not use strong acid or alkaline cleaners, as they may corrode the sandstone surface and cause discoloration. Dry the surface promptly with a cloth after cleaning to avoid prolonged water accumulation, which can lead to bacterial growth in the pores.

2. Specialized Cleaning of Functional Accessories

Matte Gold ABS Pump Head (Soap Dispenser): If liquid flow is restricted, remove the pump head and soak it in warm water (40-50°C) for 10-15 minutes to dissolve crystallized toiletries residue. Rinse thoroughly with water before reinstalling. Do not pierce the liquid outlet with sharp objects, as this may damage the pump head and its matte gold plating.

Stainless Steel (S/S) Toilet Brush Handle: Wipe with a soft, damp cloth dipped in neutral detergent. The stainless steel material is rust-resistant and requires no additional anti-rust treatment. After cleaning, dry it and place it in a well-ventilated

area.

Nylon Brush Head: Rinse thoroughly with water after use. For sterilization, soak it in a small amount of mild disinfectant for 5 minutes, then hang it in a ventilated area to dry. Avoid prolonged soaking in water to prevent bristle deformation and bacterial growth.

3. Cleaning & Maintenance of Solid Wood Accessories

Cleaning Method: Wipe the wood grain surface with a slightly damp soft cloth to remove dust and water stains. Do not soak in water for a long time to prevent the solid wood from absorbing water, deforming, or cracking.

Mold Prevention & Care: Wipe with diluted white vinegar water (1:10 ratio) once a month, or apply a small amount of natural wood wax oil. This not only prevents mold and bacteria but also maintains the luster of the wood grain and extends the service life.

Environmental Tips: Avoid placing the product in direct sunlight or high-temperature areas (e.g., near a bathroom heater) to prevent the solid wood from cracking due to thermal expansion and contraction.

4. Daily Usage & Care Tips

Avoid pouring boiling hot water directly into the tumbler or storage jar, as extreme temperature differences may cause the sandstone to crack.

Do not fill the soap dispenser with overly viscous toiletries to prevent clogging the pump head.

Regularly check the solid wood accessories for signs of moisture. If mild mold is found, wipe it with an alcohol cotton pad and air-dry it promptly.

Avoid hitting the sandstone surface with heavy objects to prevent damage to its natural pore structure.

By following these methods, your bathroom 5-piece set will maintain its simple texture and tidy appearance for a long time, continuing to create a wabi-sabi and healing atmosphere in your bathroom.

Production process

FAQ

Are you a factory or trading company?

We are a factory with sales office and factory in Dongguan, China. Our factory has BSCI certificates and more than 60 experienced workers.

How about the delivery day?

We need 60 days as production lead time after the order is confirmed. We have no stock at hand, so we will prepare material and arrange mass production according to your purchase order.

Can I use my own design/color?

Surely you can! You can change the color of the include parts & body, components, and pattern. We can follow your design and artwork in mass production. For some new design, tooling might be needed; we will advise on the tooling cost and lead time before creating.
