Polyresin bathroom accessories set round with wood base resin soap dispenser tumbler bath kit

Product introduction:

This blue-toned wood-effect bathroom set masterfully blends the calm hue of the ocean with the warm texture of natural bamboo, infusing modern bathrooms with a fresh, natural vibe and creating a functional yet aesthetically pleasing care space.

The set includes four core pieces: a soap dispenser, a tumbler, a soap dish, and a toilet brush, covering all daily bathroom needs. Crafted from high-quality resin, the bottles and cups feature fine, vertical ribbed textures with a matte deep blue finish. The surface is smooth, non-slip, and resistant to fingerprints and water stains, making daily cleaning a breeze.

The soap dispenser is fitted with a natural bamboo base and an ABS pump. The delicate bamboo grain creates a striking contrast with the blue body; the ABS pump delivers smooth, consistent output, is corrosion-resistant and durable, and works perfectly with all types of liquid soaps and shower gels. Both the tumbler and soap dish come with bamboo bases for anti-slip and moisture-proof stability. The tumbler has a comfortable grip and ideal size, while the shallow soap dish allows for quick drainage to keep your countertop dry.

As a key cleaning essential, the toilet brush also features a bamboo base, paired with a stainless steel handle and nylon bristles. The stainless steel handle is rust-proof and long-lasting, maintaining its sleek appearance over time. The high-density nylon bristles are firm yet flexible, reaching deep into crevices for thorough cleaning without shedding or deforming.

Every detail balances practicality and style, effortlessly complementing Nordic, Japanese, and minimalist bathroom designs. This set adds a fresh, sophisticated touch to your daily routine.

Cleaning Tips for the 4-Piece Glass Bathroom Set

To extend the service life of the blue-toned wood-effect bathroom set and maintain its aesthetic appeal, please follow these cleaning and maintenance instructions:

Daily Cleaning:

Wipe the resin body with a soft cloth dampened with a neutral cleaner (such as diluted dish soap). For dust in the vertical ribbed crevices, use a soft-bristled brush to gently sweep. Avoid using steel wool or hard brushes, as these can scratch the matte coating.

Wood Component Care:

Regularly wipe the bamboo base with a dry cloth. Do not let it soak in water for long periods. Always dry water droplets immediately after cleaning to prevent mold and cracking. You may apply a thin layer of wood wax oil once every three months to maintain its warm luster.

S/S & ABS Parts:

Disinfect the stainless steel toilet brush handle and ABS pump with an alcohol wipe. If the pump becomes clogged, remove it and soak it in warm water to clear the blockage. Never use strong acidic or alkaline cleaners, as they will corrode the components.

Regular Maintenance:

A deep clean is recommended once a week. Focus on cleaning the soap dish drain holes, the inside of the tumbler, and the crevices of the toilet brush base. Always drain excess water from the nylon brush ball after use, and replace it monthly for hygiene.

Note:

Avoid prolonged exposure to direct sunlight and keep away from high temperatures to prevent the resin from fading and the bamboo from warping. With gentle care, your bathroom set will stay looking new for longer.
