Sand stone bathroom accessories set round with rock look resin lotion bottle with pump household item

Product introduction:

This beige rock-effect bathroom 6-piece set draws inspiration from natural travertine stone, blending warm beige tones with rugged rock textures to create a bathroom collection that balances wabi-sabi aesthetics with practical functionality, infusing your care space with a relaxed yet sophisticated natural atmosphere.

The set includes six core pieces: a soap dispenser, tumbler, toothbrush holder, soap dish, tray, and toilet brush, covering all daily bathroom needs. Crafted from high-quality resin, its Rock effect finish faithfully replicates the granular texture of natural stone, offering a smooth yet non-slip feel. The matte beige coating resists fingerprints and water stains, making daily cleaning effortless.

The soap dispenser features an ABS pump that delivers consistent, smooth output. It is corrosion-resistant and durable, working perfectly with all types of liquid soaps and shower gels. The tumbler and toothbrush holder have comfortable grips and ideal sizes. The divided toothbrush holder keeps multiple brushes and toothpaste organized, while the shallow soap dish allows for quick drainage to prevent soap from dissolving. The long tray neatly stores small toiletries, keeping countertops clutter-free.

As an essential cleaning tool, the toilet brush base continues the set's rock-effect design, paired with a stainless steel handle and nylon bristles. The stainless steel handle is rust-proof and long-lasting, maintaining its sleek appearance over time. The high-density nylon bristles are firm yet flexible, reaching deep into crevices for thorough cleaning without shedding or deforming.

Every detail balances practicality and style, effortlessly complementing wabi-sabi, Japanese, and minimalist bathroom designs. This set adds a touch of relaxed sophistication to your daily routine.

Cleaning Tips for the 6-Piece Resin Bathroom Set

To extend the service life of your bathroom set and preserve its natural rock-effect finish, please follow these cleaning and maintenance instructions:

Daily Cleaning

Wipe the resin body with a soft cloth dampened with a neutral cleaner (e.g., diluted dish soap). For dust in the textured crevices, use a soft-bristled brush to gently sweep. **Do not use steel wool or hard cleaning brushes** as these can scratch the matte coating and damage the rock-effect surface.

S/S & ABS Component Care

Clean the stainless steel toilet brush handle and ABS soap pump with a soft cloth. If the pump becomes clogged, remove it and soak it in warm water to clear the blockage. Never use strong acidic or alkaline cleaners, as they will corrode the components.

Regular Maintenance

A deep clean is recommended once a week: focus on cleaning the soap dish drain holes, tray, the inside of the tumbler, and the crevices of the toothbrush holder. After use, rinse the toilet brush thoroughly and let it air dry completely. The nylon brush ball is recommended to be replaced monthly for hygiene.

Important Notes

Avoid prolonged exposure to direct sunlight or high temperatures, which may cause the resin to fade or warp. With gentle, regular care, your set will maintain its elegant wabi-sabi look and stay clean for longer.

Production process

MAYLAND / Polyresin Item Production Process Flow
