Sand stone bathroom accessories set round with travertine look and wood accessories resin lotion pump bottle

Product introduction:

This 5-piece bathroom set is crafted from resin with a travertine-inspired finish, blending the warm, organic texture of natural stone with modern functionality. Complemented by warm wooden bases and lids, it brings a relaxed, natural ambiance to your bathroom while prioritizing durability and easy maintenance, fitting seamlessly with a variety of home decor styles.

The set includes a soap dispenser, tumbler, soap dish, cotton swab jar, and toilet brush, covering all daily bathroom needs for washing, storage, and cleaning. The resin body features a delicate, pitted texture replicating natural travertine in a soft off-white hue, paired with rich brown wooden bases and lids for a balanced warm-and-cool aesthetic. It retains the look of natural stone while eliminating common drawbacks like staining and high maintenance—simply wipe with a damp cloth to keep it clean.

The soap dispenser features an ABS pump head that is corrosion-resistant, smooth to press, and dispenses evenly without dripping. Its wooden base prevents slipping while elevating the design. The tumbler, soap dish, and cotton jar follow the same cohesive style: the jar's wooden lid keeps contents dust-free and moisture-proof, while the soap dish's shallow design allows quick water drainage to prevent bacteria buildup from leftover soap residue. The toilet brush comes with a stainless steel (S/S) rod that resists rust and deformation, paired with a nylon brush head and TPR splash guard for effective cleaning and odor containment, with the metallic finish complementing the set's overall look.

Balancing aesthetics and practicality, the travertine-inspired finish exudes a subtle wabi-sabi and minimalist luxury vibe, while the wooden elements add warmth. Ideal for Scandinavian, modern minimalist, or natural wood-style bathrooms, the set is made with shatter-resistant resin and waterproof-treated wood, built to withstand humid bathroom environments. It's a stylish yet functional addition that brings a calming, natural touch to your daily routine.

Cleaning Tips for the 5-Piece Resin Bathroom Set

To extend the service life of your bathroom set and keep it looking brand new, please follow these cleaning and care recommendations:

Daily Cleaning:

Use a soft microfiber cloth dampened with a neutral cleaner (e.g., diluted dish soap) to gently wipe the surface, removing water

stains, soap scum, and dust. Do not use steel wool, hard-bristle brushes, or abrasive cleaning products, as these may scratch the travertine-inspired texture and resin surface.

Stubborn Stain Removal:

For persistent soap scum or limescale, soak a soft cloth in a 1:1 mixture of white vinegar and water, apply it to the stain, and let it sit for several minutes before wiping. Avoid prolonged submersion of the product in water, especially wooden components, to prevent warping from moisture.

Care for Wooden Parts:

The bases and lids are made of solid wood. Do not let them come into contact with water for extended periods. Dry them immediately with a clean cloth after cleaning. Applying a small amount of wood wax oil regularly can effectively protect against water and moisture, prolonging their service life.

Care for Metal / TPR Components:

The soap dispenser pump, stainless steel brush handle, and TPR cover can be rinsed with warm water and a neutral cleaner. Dry them thoroughly and store in a dry place. Avoid exposing stainless steel parts to chlorine bleach to prevent discoloration and oxidation.

Long-Term Maintenance:

Dry the surface immediately after use and keep the bathroom well-ventilated to reduce limescale and mold growth. Do not stack heavy objects on the set during storage to prevent damage from impact.
