### Product Description

**Polyresin bathroom accessories set round with checker pattern and wood  
accessoires lotion pump bottle soap dish**

**Product introduction:**

Our Product

When sleek modern minimalism meets the warm texture of natural wood, this resin bathroom accessories set elevates daily routines with its diamond-patterned detailing and authentic wood accents, turning every bathroom ritual into a refined experience.

The set includes five essential pieces—liquid soap dispenser, tumbler, soap dish, cotton swab jar, and toilet brush—delivering all-in-one solutions for bathroom organization and cleaning. Crafted from durable resin with a matte black, embossed diamond texture, each piece is non-slip to the touch, fingerprint-resistant, moisture-proof, and easy to wipe clean, maintaining its crisp look even in humid bathroom environments.

Natural acacia wood details serve as the set's elegant finishing touch: the soap dispenser features a matching wooden pump head for smooth, leak-free dispensing; the tumbler and soap dish come with integrated wood bases that add a warm, organic contrast to the cool black resin, enhancing visual depth on marble countertops; the cotton swab jar includes a tight-sealing wooden lid to keep contents dust-free and neatly organized; and the toilet brush combines a solid wood handle with a dual-action TPR + black nylon brush head, effectively tackling tough stains without scratching toilet surfaces.

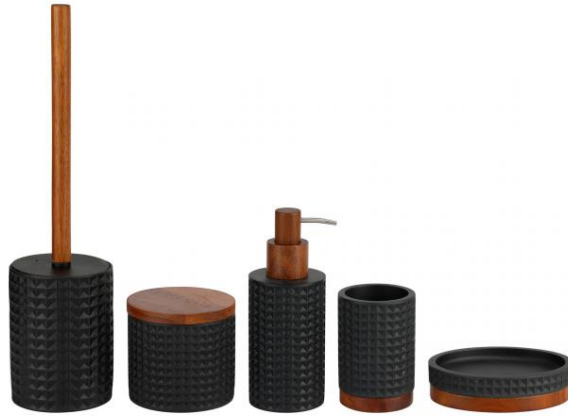

Boasting a sophisticated, understated design, this set complements a range of decor styles—from wabi-sabi and industrial to modern minimalist—blending seamlessly with both dark vanities and light marble countertops. A perfect balance of functionality and aesthetic appeal, it transforms cluttered bathroom spaces into refined, cohesive retreats.

### Cleaning Tips for the 5-Piece Polyresin Bathroom Set

To maintain the appearance and service life of your resin bathroom accessories set, we recommend following these regular cleaning and care guidelines to balance effective stain removal with proper maintenance.

For daily cleaning, wipe the surface with a soft cloth dampened with warm water and a mild detergent (such as dish soap) to remove water stains and soap scum. Avoid using sharp tools like steel wool or stiff brushes, as they may scratch the matte, embossed texture of the resin.

Special care is required for wooden components (pump head, base, lid, and brush handle): Gently wipe with a slightly damp soft cloth and dry immediately. Do not soak for extended periods or expose to strong acid/alkaline cleaners, as this may cause the wood to warp, crack, or discolor. For minor stains, apply a small amount of wood wax oil or specialized wood conditioner to restore its warm luster.

After each use, rinse the toilet brush's TPR and nylon bristles thoroughly with clean water and hang to air dry. We recommend soaking the brush in diluted mild disinfectant for 10 minutes monthly, then drying completely before returning it to its holder to prevent bacterial growth.

When storing, ensure all components are fully dry before putting them away to avoid mold growth in humid environments. If not in use for a long time, apply a thin layer of maintenance oil to the surfaces and store in a cool, dry, well-ventilated area away from direct sunlight and high heat to prevent resin degradation and wooden parts from warping.

### Production process

### FAQ

**Are you a factory or trading company?**

We are a factory with sales office and factory in Dongguan, China. Our factory has BSCI certificates and more than 60 experienced workers.

**How about the delivery day?**

We need 60 days as production lead time after the order is confirmed. We have no stock at hand, so we will prepare material and arrange mass production according to your purchase order.

**Can I use my own design/color?**

Surely you can! You can change the color of the include parts & body, components, and pattern. We can follow your design and artwork in mass production. For some new design, tooling might be needed; we will advise on the tooling cost and lead time before creating.

**How about the MOQ?**

Basically we need MOQ 800 pcs per style/color. We have no stock at hand, so we can only prepare the material and arrange mass production according to your purchase order. However, we are quite flexible on this matter. Please contact our sales team about your plan. We will try our best.
