Sand stone bathroom accessories soap dispenser round with diamond dot and wood accessories toothbrush cup

Product introduction:

Soft cream white paired with warm natural wood, this textured wave resin bathroom accessory set brings fresh minimalist charm to your washroom. The complete 6-piece kit balances aesthetic appeal, durability and daily washing & cleaning needs, including a soap dispenser, tumbler, draining soap dish, cotton jar, toothbrush holder and toilet brush, which tidies up your countertop in one go and eliminates messy clutter.

Each vessel is crafted from high-density eco-friendly resin, embossed with three-dimensional water wave textures. Its matte cream finish looks gentle and elegant, with a smooth non-slip touch. Resistant to bathroom humidity, it repels watermarks and soap scum—simply wipe clean for upkeep, and resists yellowing or cracking over long-term use. All wooden trims are made of premium solid wood with distinct natural grain, softening the stark coolness of resin. It seamlessly matches cream style, log style, modern minimalist and other interior decor themes.

Exquisite craftsmanship shines in every detail: The soap dispenser is fitted with a wood-grain coated plastic pump head and solid wood connecting fittings, delivering smooth, even liquid output with a leak-proof sealed structure. The tumbler, draining soap dish and toothbrush holder all feature solid wood bases that lift the pieces off the counter to prevent slipping and moisture-induced mildew. The cotton jar comes with a tight solid wood lid to block dust and dampness, keeping cotton swabs and pads neatly stored. The toilet brush has a solid wood handle, paired with a dual-action TPR and nylon brush head. Flexible TPR conforms to curved toilet surfaces, while stiff nylon bristles lift tough stains for full coverage cleaning without scratching ceramic glaze.

Boasting sleek rounded silhouettes and gentle layered wave patterns, the set harmonizes beautifully atop white marble vanities or log bathroom cabinets. Free of gaudy ornamentation, it creates an upscale, laid-back ambiance through textured material and warm wood contrast. Ideal for family homes, boutique homestays and apartment renovations alike, this low-maintenance, versatile, fully functional bathroom set turns your morning wash and toilet cleaning routines into calming, luxurious rituals.

Cleaning Tips for the 6-Piece Sand Stone Bathroom Set

To preserve the cream wave texture of the set and the warm natural luster of wooden parts long-term, please follow the standardized cleaning and maintenance instructions below.

For daily cleaning, dampen a soft cloth with warm water, add a small amount of mild dish soap, and wipe the resin body to easily remove water stains and soap scum. Do not use steel wool, stiff brushes, or strong acid/alkaline cleaners, as these will scratch the 3D wave texture and corrode the matte finish.

Delicate care is required for wooden accessories (dispenser connectors, bases, jar lid, toilet brush handle): Wipe stains quickly with a barely damp soft cloth, then dry off all moisture right away. Never submerge wood in water for extended periods. If slight dullness appears, apply a thin coat of wood wax oil and buff gently to prevent cracking, discoloration and mildew growth.

After each use, rinse the toilet brush's TPR and nylon bristles thoroughly with clean water and hang to air-dry. Soak the brush in diluted mild disinfectant for 10 minutes every month for sanitization, and let it dry completely before placing back into the holder.

Ensure all components are fully air-dried before storage; do not leave bases sitting in pooled water on countertops for long stretches. If the set will be unused for a long time, wipe everything clean, apply a thin layer of maintenance oil, and store in a cool, well-ventilated spot away from direct sunlight and hot bathroom steam. This prevents resin yellowing and aging, as well as warping or cracking of wooden pieces. With regular simple upkeep, your set can maintain a pristine, refined appearance year-round.
